**\$4.49**  
**PER DOSE**

Ticks, Fleas & Mosquitos carry viruses, bacteria and disease. Orals are popular and important to your practice BUT many clients need the value, efficacy and disease prevention power of Provecta Advanced.

A recent study shows 67% of pet owners purchase their flea and tick prevention outside the veterinary clinic.<sup>1</sup> Provecta Advanced can help you compete and bring your “Caring but Cost Conscious Clients” back to your Practice! Building a lifetime relationship with a client starts with providing efficacy and value.

Provecta Advanced for Dogs provides protection against ticks, fleas, mosquitos, biting flies and lice. It repels and kills the four most common ticks and all life stages of fleas. Provecta Advanced goes a step further and is highly effective against mosquitos (anti-feeding efficacy against mosquitos was 92.5%-99% effective during 29 day testing period)\*

<sup>1</sup> From the 2015 Pet Pharmaceutical Market Study, Brakke Consulting, Inc. and Trone Brand Energy Inc.
