

ORDER YOUR EQUIPMENT EARLY!

The pandemic
has changed
a lot of things in
the veterinary
industry in 2021.

- Shipping and backorders have become unpredictable and are at an all-time high.
- Many vendors are implementing price increases in August and September due to the increased costs in shipping and raw materials.
- Larger number of tax incentives in 2021, including Section 179 (www.section179.org) are available to veterinary clinics.
 - Midwest Veterinary Supply has been buying in more stock when possible so we can have it available for our customers.
 - Don't lose the tax incentives because the item you are ordering is on back order or stuck on a shipping truck or boat.

Order an equipment catalog from your sales rep or view on our website and download: midwestvetsupply.com/wps/portal/c/equipment/catalog

Thank you for your business.

Contact the Midwest Veterinary Supply
Equipment Team for all of your
equipment needs and questions.
