by including at least \$500 in eligible Vanguard Feline products toward the \$2,000 purchase threshold

Offer valid July 7–August 29, 2025.\*

**Your Feline Patients Deserve Protection**

**Convenia**

A treatment option for cat owners, regardless of their cat's temperament. 63% of those not using an injectable would even be willing to pay a higher price for a one-time injectable antibiotic<sup>1</sup>

**Cerenia Injectable**

An injectable option that successfully treats feline vomiting

**Vanguard**

Vanguard Feline RCP 3-year vaccine is non-adjuvanted and covered by Zoetis' Immunization Support Guarantee for 4 years in case there's a gap in prevention<sup>2</sup>

Vanguard FeLV vaccine employs Gentle Safe–Quil™ a plant-based adjuvant<sup>3</sup> for enduring protection. FeLV vaccination is recommended for all kittens, regardless of lifestyle<sup>4</sup>

In a study, the Vanguard FeLV vaccine did not induce chronic or exacerbated inflammatory changes at the injection site, which has been implicated in the pathogenesis of vaccine-associated sarcomas<sup>3</sup>

**Ask your Zoetis or distributor representative about this offer**

FeLV=Feline Leukemia Virus; RCP=Rhinotracheitis, Calicivirus, and Panleukopenia.

**IMPORTANT SAFETY INFORMATION FOR CERENIA:** Use Cerenia Injectable for vomiting in cats 4 months and older. Use subcutaneously for acute vomiting in dogs 2 to 4 months of age or either subcutaneously or intravenously in dogs 4 months of age and older. Safe use has not been evaluated in cats and dogs with gastrointestinal obstruction, or those that have ingested toxins. Use with caution in cats and dogs with hepatic dysfunction. Pain and vocalization upon injection is a common side effect. In people, topical exposure may elicit localized allergic skin reactions, and repeated or prolonged exposure may lead to skin sensitization. See full Prescribing Information at [CereniaInjectablePI.com](http://CereniaInjectablePI.com).

**IMPORTANT SAFETY INFORMATION FOR CONVENIA:** People with known hypersensitivity to penicillin or cephalosporins should avoid exposure to Convenia. Do not use in animals with a history of allergic reactions to penicillins or cephalosporins. Side effects for both dogs and cats include vomiting, diarrhea, decreased appetite/anorexia and lethargy. See full Prescribing Information at [ConveniaPI.com](http://ConveniaPI.com).

**\*Terms & Conditions:** Qualifying orders must be placed and invoiced between July 7, 2025, and August 29, 2025, direct through Zoetis or from an authorized distributor. Back orders that do not ship during the promotional period will not count toward the promotion tier threshold or rebate payout. To qualify, accounts must reach a \$2,000 purchase minimum (based on net sales, after returns) across Cerenia Injectable and Convenia with 1 unit on each. Qualifying accounts that include at least \$500 in eligible Vanguard Feline SKUs toward the \$2,000 minimum will earn an additional 5% rebate on all eligible products, bringing the total rebate to 15%. The rebate is in addition to any existing MZR or Strategic Contract discounts/rebates that accounts may receive per their current contract terms. The rebate will be capped at \$1,000.
