## Important Safety Information

**EUTHASOL® (pentobarbital sodium and phenytoin sodium) Euthanasia Solution: WARNING:** Keep out of reach of children. If eye contact, flush with water and seek medical advice/attention. **CAUTION:** Caution should be exercised to avoid contact of the drug with open wounds or accidental self-inflicted injections. For canine euthanasia only. Must not be used for therapeutic purposes. Do not use in animals intended for food. Euthanasia may be delayed in dogs with severe cardiac or circulatory deficiencies. **ENVIRONMENTAL HAZARD:** This product is toxic to wildlife. Birds and mammals feeding on treated animals may be killed. Euthanized animals must be properly disposed of by deep burial, incineration, or other method in compliance with state and local laws, to prevent consumption of carcass material by scavenging wildlife. For full prescribing information, contact Virbac at 1-800-338-3659 or [download the product insert](#).

information  
on EUTHASOL

## IMPORTANT SAFETY INFORMATION

Accidental self-injection of **STELFONTA® (tigilanol tiglate injection)** may cause severe wound formation. To decrease the risk of accidental self-injection, sedation of the dog may be necessary. In dogs, do not inject STELFONTA into subcutaneous mast cell tumors located above the elbow or hock. Formation of wounds, possibly extensive, is an intended and likely response to treatment with STELFONTA along with associated swelling, bruising and pain; these wounds are expected to heal. Appropriate pre- and post-treatment medications must be given, including a corticosteroid plus blocking agents for both H1 and H2 receptors, in order to decrease the potential for severe systemic adverse reactions, including death, from mast cell degranulation. For full prescribing information, contact VIRBAC at 1-800-338-3659 or [download the product insert](#).

## IMPORTANT SAFETY INFORMATION

**PARASEDGE® Multi for Dogs (imidacloprid + moxidectin) Topical Solution:** Children should not come in contact with the application site for two (2) hours after application. Wash hands after use. Do not use this product on cats. **DO NOT ADMINISTER THIS PRODUCT ORALLY.** Do not use on puppies and dogs less than 7 weeks of age or less than 3 lbs. body weight. Ensure that dogs cannot lick the product on themselves or other treated pets. Use with caution on sick, debilitated, or underweight dogs. Safety in breeding, pregnant, or lactating dogs has not been established. For full prescribing information, contact Virbac at 1-800-338-3659 or [download the product insert](#).

PARASEDGE Multi for Dogs

## IMPORTANT SAFETY INFORMATION

**AYRADIA® (metronidazole oral suspension):** Neurologic effects (reversible with supportive treatment) have been observed at high doses (10X the labeled dose).

**BIOMOX® (amoxicillin) Oral Suspension:** For use in dogs only. Contraindicated in animals with a history of an allergic reaction to penicillin.

**BIOMOX® (amoxicillin tablets):** For use in dogs only. Contraindicated in animals with a history of an allergic reaction to penicillin.

**CLINTABS® (clindamycin hydrochloride tablets):** Use with caution in patients with very severe kidney or liver disease and in animals receiving neuromuscular blocking agents such as succinylcholine.

**CLOMICALM® (clomipramine hydrochloride) tablets:** CLOMICALM tablets are not recommended for other behavior problems such as aggression.

**CYCLAVANCE® (cyclosporine oral solution) USP MODIFIED:** For use in dogs only. Gastrointestinal problems and gingival hyperplasia may occur at the initial recommended dose of CYCLAVANCE oral solution.

**EASOTIC® (hydrocortisone aceponate, miconazole nitrate, gentamicin sulfate) Otic Suspension for Dogs:** For otic (ear) use in dogs only. Do not use in dogs with known tympanic membrane (ear drum) perforation.

**EFFIPRO PLUS® Topical Solution for Dogs:** Do not use on cats. Read entire label before each use.

**EFFIPRO PLUS® Topical Solution for Cats:** Read entire label before each use.

**EFFITIX® PLUS Topical Solution for Dogs:** Do not use on cats. Read entire label before each use.

**Felanorm® (methimazole) Oral Solution:** Not for use in pregnant or lactating queens, or cats with renal, hepatic, or hematological disorders.

**GENESIS® Topical Spray (solution of 0.015% triamcinolone acetate):** For use on dogs only. Adverse events of polyuria and polyphagia have been reported in <6% of dogs receiving treatment.

**Itrafungol® (itraconazole oral solution):** For use in cats only. Use with caution in cats with renal dysfunction or impaired liver function.

**IVERHART MAX® Chew (ivermectin/pyrantel pamoate/praziquantel)** are well tolerated. All dogs should be tested for heartworm disease before starting a preventive protocol.

**IVERHART PLUS® (ivermectin/pyrantel) Flavored Chewables** are well tolerated. There are rare reports of digestive or neurological side effects following use of *IVERHART PLUS Flavored Chewables*.

**MOVODYL™ Chewable Tablets (carprofen):** Not for human use. FOR USE IN DOGS ONLY. DO NOT USE IN CATS. Concomitant use of MOVODYL Chewable Tablets with other anti-inflammatory drugs, such as other NSAIDs or corticosteroids, should be avoided due to the potential increase of adverse reactions.

**PARASEDGE® Multi for Cats (imidacloprid + moxidectin) Topical Solution:** Children should not come in contact with the application site for 30 minutes after application. DO NOT ADMINISTER THIS PRODUCT ORALLY. Do not use on sick, debilitated, or underweight cats or ferrets.

**RILEXINE® (cephalexin tablets) Chewable Tablets:** For oral use in dogs only. RILEXINE Chewable Tablets are very palatable for pets and should be stored in a secure location where pets cannot access them.

**IMPORTANT SAFETY INFORMATION**

**SENERGY® (selamectin)** may be irritating to the skin and eyes for people. Wash hands after use. Do not use in sick, debilitated or underweight animals.

**SUPRELORIN® F (deslorelin acetate) Implant:** For use in ferrets only. **DO NOT HANDLE THIS PRODUCT IF YOU ARE PREGNANT OR NURSING OR SUSPECT YOU MAY BE PREGNANT.**

**VIRBANTEL® (pyrantel pamoate/praziquantel) Flavored Chewables:** Do not use in sick animals.

**ZOLETIL® (tiletamine and zolazepam for injection)** should NOT be used: 1) in dogs and cats with severe cardiac or pulmonary dysfunction, or pancreatic disease; 2) at any stage of pregnancy or for Cesarean section; 3) in cats suffering from renal insufficiency; 4) with phenothiazine-derivative drugs as the combination produces respiratory and myocardial depression, hypotension, and hypothermia.
