**IV Catheters**

Designed for reliable vascular access, mVet IV Catheters provide smooth insertion, secure placement, and dependable performance. Available in a full range of gauges and lengths with color-coded hubs for quick identification, and offered in flash or flow styles to meet your clinic's preferred technique and patient needs.

**Activated Charcoal Granules**

Provides broad-spectrum absorption of organic chemical toxins to help prevent further absorption in the gastrointestinal tract. Easily mixed with cold water for quick oral or gastric administration in both small and large animals.

**Fresh for Spring: Fecal Diagnostics Made Simple**

Support routine intestinal parasite screening with economical, disposable fecal collection devices designed for simple and hygienic collection of fecal material. Pair with mVet microscope slides and cover slips for clear sample viewing and dependable microscopic evaluation. From collection to analysis, mVet laboratory supplies help streamline spring diagnostics with reliable, everyday tools your clinic can count on.
