Kimberly Ruha
Equine Specialist
California

Hello,

I bring more than 24 years of experience in the equine veterinary industry to my role as your Equine Territory Manager with Midwest Veterinary Supply. Throughout my career, I've gained experience in distribution, practice management, capital equipment and inventory optimization, while building strong, long-standing relationships throughout the equine veterinary community.

My connection with horses started at a young age. I grew up on a ranch in Colorado and have been caring for horses since I was four years old. For more than 45 years, I've ridden and shown horses in both English and Western disciplines. That lifelong passion led me to Colorado State University in Fort Collins, where I earned my degree in Equine Science and ultimately turned my love of horses into a career.

Today, I'm proud to combine my personal equine background, education and industry experience to support equine veterinarians and their practices. My goal is to be more than a sales representative—I want to be a knowledgeable, dependable resource who understands your practice and can help you find solutions that support your team, your business and the horses in your care.

Sincerely,

Kimberly Ruha
