RICA

Surgical High-Temperature Loop Tip Cautery

The ultimate veterinarian and clinic staff tool for quick and easy hemostasis

Why Keep It On Hand?

- Surgery supply readiness
- Procedure room restocking
- Wound care support

Product Highlights:

- Accurate- Pinpoint and precise hemostasis with the loop tip
- Quick- Heats up fast from zero to 2,200°F (1,204°C)
- Sterile- Cautery is packaged sterile, so can be used in a sterile surgical environment
- Cordless- Take and use this cautery anywhere you go in your practice
- Convenient- The “pressure sensitive” switch allows for easy “on” and “off”
- Safe- Quickly cools so it is safe to touch skin (within four seconds)
- Flexible- The two-inch length shaft is excellent for working in recessed areas
- Disposable- Simply discard the entire cautery when the batteries wear out
- Versatile- Use safely and effectively for several types of surgical procedures
- Cost Effective- An affordable alternative versus bulky stationary cautery units
